PISCATAQUIS COUNTY NURSING SERVICE
Affiliated with
THE MAINE PUBLIC HEALTH ASSOCIATION

Town Report Feb. 1, 1932—Feb. 1, 1933

To the Selectmen and Citizens of Sebec, Maine:

Herewith we submit a report of public health nursing service given to your town for the period Feb. 1, 1932 to Feb. 1, 1933.

It is impossible to compute in money or figures the far-reaching results of health educational programs in our schools, physical examinations with consequent corrections of defects, instructive and bedside care in the home or the various phases of social welfare, all of which are a part of our nursing program. However, the following resume of this past year's service may be of interest and may show to some extent our endeavors to carry out our program in your town.

Last April measles appeared in the form of epidemic and many of the school children were out of school for this reason. Many home visits were paid to children who were sick at home and instructions given to parents in regard to care whenever necessary. Visits were paid to the schools in an effort to check up as many six- or seven-pointers as possible. There was a number who could easily have qualified for certificates and pins, but only one did and this was at the Village School.

During the summer several visits were paid to homes for instructive or bedside care. The nurse accompanied a physician to the home of one patient. Two children were taken to Milo for dental treatment. Hospitalization was arranged for another patient.

Since the beginning of school in September, physical examinations have been given to the pupils of Harriman, Corner and Village schools and repeated visits have been made to Village and Station schools on account of the presence of skin disease and in some cases it was necessary to exclude pupils for this reason. However, the parents were co-operative in cleaning up the situation and even went so far as to bring the children into Dover-Foxcroft in order that the nurse might give a complete examination before they returned to school. The Station school has not as yet

received physical inspection but this will be attended to as soon as possible.

We wish to thank the town officials, the teachers and school committee and other organizations as well as the private citizens, parents and teachers who have co-operated with us so heartily this year.

Respectfully submitted,

PISCATAQUIS COUNTY NURSING SERVICE,

By Louise Nichols, P. H. N.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and citizens of Sebec:

I herewith submit my annual report of your schools for the municipal year 1932-33.

The same schools have been maintained, as last year, with the pupil enrollment and teachers as follows:

Village	Marjorie Burgess	18 pupils
Corner	Kathleen Annis	14 pupils
Station	Beatrice Grant	12 pupils
Harriman	Velma Burgess	5 pupils
Conveyance drivers:		
Corner	Harry Taylor	2 pupils
Corner	J. Q. Livermore	46 pupils
Station	Norman Hesketh	5 pupils

Of the sixteen students pursuing secondary work during the fall term twelve remain: four at Milo High school and eight at Foxcroft Academy. With one exception these students are doing a satisfactory grade of work.

At the beginning of the fall term there were five pupils in the vicinity of the Harriman school, so the committee voted to maintain it. Miss Velma Burgess, a graduate of Farmington Normal School, was secured as teacher.

Beginning the fall term the children, that have previously attended East Dover schools, have been transported to the Station. This has meant a saving to the town of nine dollars (\$9.00) per week, or two hundred seven dollars (\$207.00) for the first twenty-three weeks and a total saving of three hundred twenty-four dollars (\$324.00) for the school year.

Last summer two teachers, Miss Annis and Miss Burgess, continued their work at Farmington State Normal School summer session for teachers, it being their third and fourth summers respectively.

The County Teachers' Convention held in Dover-Foxcroft, and the State Convention held in Bangor were attended by all teachers. Besides attending these conventions, your teachers are subscribers to educational magazines and other material helpful to both teacher and pupils, in their school work.

The wise judgment of my predecessor and the Super-

intending School Committee in retaining teachers for a period of years, who are willing to give of their time, to improve their professional standing, is bearing its fruits in your schools at the present time. An experienced teacher is known by her services rendered, an inexperienced teacher is always an uncertainty. I am pleased to report, that both experienced and inexperienced teachers are doing a very creditable piece of work, in their respective schools. The pupil progress, for the most part, has been satisfactory.

We are troubled sometimes, because one child brings home a more promising rank card than his brother or sister, or our neighbor's little child. We must remember that each child is an individual; that no two learn with the same rapidity, and therefore, do not accomplish the same amount of work, nor as thoroughly in the same length of time. Due to the difference in the power of attainment by different children it is necessary to have children repeat their year's work. Any child that is required to repeat the year's work, will be given our highest consideration and it will only be done when in our judgment, his educational foundation for the grade which he is pursuing is not safe to build upon in the grades ahead.

With the exception of the English books, your book needs are taken care of very satisfactorily. Necessary supplies have been furnished. Certain maps have been replaced and others should be added to complete the sets.

All necessary repairs have been taken care of by your School Committee. The Corner school house roof has been shingled, this being the only major item of repair. The Station school building will need re-roofing another year. I would recommend painting the inside of Corner building, as the light is not satisfactory at the present time.

Your superintendent, and two members of your school board have met with your Budget Committee. Your School Committee presented the following amounts as necessary appropriations:

Common Schools	\$2,200.00
High School	500.00
Books and supplies	150.00
Repairs and insurance	100.00

Superintendent 150.00

These amounts represent a cut of 22% over the costs of last year. As you probably know, due to the State revaluation our State School Funds will be cut 20% next year, a part of this will be paid back to the town, through a decrease in the State Tax. After consideration, the Budget Committee has recommended for:

Common Schools	\$2,000.00
High School	500.00
Books and supplies	150.00
Repairs	75.00
Superintendent	150.00

I personally wish to thank the members of the Budget Committee for their consideration, and feel that their minds were with the School Committee, in considering, that, education is a necessity and not a luxury, since the growth of children cannot be halted or postponed during an economic emergency, and that the education of to-day's child must be accorded a high degree of priority in determining the purposes and services for which your taxes will be paid.

School Board members, citizens, teachers, boys and girls of Sebec, the co-operation accorded me, during my short period in your schools has not only been most pleasant but an inspiration in my work. Any suggestions for the betterment of your schools will be appreciated.

Respectfully submitted,

PERRY F. SHIBLES,
Superintendent of Schools.

NOTICE TO VOTERS

200 copies of this report have been printed. Enough for one for every family and copies for State Officials. An effort has been made to get a book to you in advance. Study the accounts. Get posted on town affairs for 1932. Take it with you on town meeting morning. It may be the only one you will have.

PISCATAQUIS COUNTY NURSING SERVICE

Town Report Feb. 1, 1933 to Feb. 1, 1934

To the Selectmen and Citizens of Sebec, Maine:

I hereby submit a report of public health nursing service given to your town for the period Feb. 1, 1933 to Feb. 1, 1934:

No statistics could paint an accurate picture of the actual results of any public health nursing program in the home or in the school. However the following

resume of the work in your town may be of interest to citizens.

At the end of the school year 1932 and 1933 the schools had all received annual physical inspection. At that time there were about 20 pupils who could have qualified for six or seven point health awards. One pupil obtained the necessary certificates and was awarded a seven point pin and certificate of health.

During the summer home visits were paid six patients, one patient receiving several calls throughout the summer. One patient was assisted in entering the sanatorium.

During the school year 1933-1934 the pupils of the Station School and the Corner School have received annual physical examinations with the following results:

Pupils inspected	37
Pupils found to be free from symptoms of defects	13
Pupils who have had corrections within the year	6
Notices sent to parents	29

Defects noted as follows:

Vision	6
Hearing	1
Teeth	7
Nasal	4
Throat	12
Skin	1
Glands	3

There were no pupils noticeably underweight which is a remarkable showing in comparison to other towns this year.

The Village school will receive annual physical inspection as soon as possible.

In closing I wish to thank the school board, the selectmen, the parents and teachers and in fact each and every one who has helped in the program this year.

Respectfully submitted,

REPORT OF SUPERINTENDENT OF SCHOOLS**To the Superintending School Committee and Citizens of Sebec:**

I herewith submit my second annual report of your schools for the municipal year 1933-34.

Three schools have been maintained for the municipal year 1933-34. With only four pupils, the Harri-man school automatically closed itself.

The pupil enrollment and teachers are as follows:

VILLAGE—Teacher, Marjorie Burgess; Training, 4 summer sessions; No. Pupils, 20; Wages per year, \$540.

CORNER—Teacher, Kathleen Annis Huff; Training, 2 summer sessions; No. Pupils 22; Wages per year, \$540.

STATION—Teacher, Eleanor Ladd; Training, 1 year; No. Pupils, 12; Wages per year, \$432.

Fifteen tuition pupils entered the secondary schools last fall. Of that number twelve are in attendance at the present time and one entered at the beginning of the Winter term. I regret to say that the scholastic record of many of our High School pupils has not been satisfactory. In most cases, more consistent work on the part of the pupil could have made a decided improvement. We shall also try to send better prepared students, through better equipped habits of study and more time to the fundamentals of English and Mathematics.

Tuition has been paid as follows: Milo, \$90 per pupil per year; Foxcroft Academy, \$85 per pupil per year; and Houlton High School, \$100 per pupil per year.

Beginning last fall the School Committee voted to give the parents of the three pupils to attend the Harri-man school, three dollars a week for board; the parents to have the right to make the choice of the school for their child to attend. Two are attending Sebec Corner and one at Milo.

Three conveyance routes are being maintained as follows:

CORNER—Harry Taylor, 7 pupils, \$10.00 per week.

CORNER—J. Q. Livermore, 5 to 8 pupils, \$7.50 per

week.

STATION—Norman Hesketh, 6 pupils, \$7.50 per week.

Due to the heavy snows and icy traveling, conveyance has been more difficult this winter than in years past. Considering the winter, I think the teams are doing well, and that those in charge of the roads have also been doing well to keep them open.

All teachers attended the County Convention held at Guilford on October 11th and two attended the State Convention held at Lewiston, October 26 and 27.

One new teacher, Miss Eleanor Ladd of your town, having had one year of Normal School training, was elected teacher of the Station School beginning the fall term. Your teachers are interested and conscientious in their work, and with that type of teacher schools are successful, and I am sure that parents and citizens appreciate the services that your teachers are giving.

Due to several new sets of English books not being ready for publication until the latter part of this school year, new books have not been purchased. New geography books are also needed for next year. With an appropriation of \$150 for books and supplies, I believe that these introductions can be taken care of, along with the other necessary replacements.

The Zaner-Bloser Method of Writing has been introduced in this school union, and already many decided improvements have been accomplished in the pupils' writing. This method is a combination of the muscular and finger movements, which we believe is the natural method used in everyday writing. Legibility, through study of slant, size, shape and space of letters is the aim of the course for beginners. Speed is developed after a certain degree of formation is attained.

REPAIRS

During the summer the inside of the Corner school-house was re-decorated; all desks and furniture resurfaced, shellaced, and varnished. The total cost being \$40.45. About the middle of the Fall term, it was found necessary to rebuild the Village school platform, the total cost being \$24.19. The Insurance on the Village

schoolhouse for three years amounting to \$49.20 was also paid from the Repairs account. The balance of this account has been used to take care of cost of lights and general repairs. Due to work on the Village platform, which had not been planned for, it was necessary to overdraw the repairs account \$5.32.

C. W. A. WORK

In November the Federal Government appropriated a sum of \$450,000,000 to be expended in conjunction with municipalities to aid people on the welfare list, war veterans, and those without employment. This work has been carried on under the name Civil Works Administration.

The shed at the Corner was moved several feet and new sills put in, allowing more light to enter the schoolroom.

The Village schoolhouse was painted inside and all desks and furniture resurfaced and varnished. As a result of this project you will find the interior of all of your school buildings in first-class condition. I am sure teachers and pupils are pleased with their rooms and have invited all parents and citizens to visit with them.

I wish to thank the Selectmen for the allotment of this work to the schools and the men employed for their fine work and interest in the project. The total cost to the town of this work was \$53.27. This has been taken care of through the school accounts. Outside painting is practically the only work that should be done on your school buildings. I believe it would be a good investment to complete this work during the next three years.

The school accounts were given reasonable consideration by your Budget Committee of last year, and it has been the desire of your Committee members and Superintendent to keep within the appropriations which were voted.

My second year's work, like the first, has been most enjoyable. The splendid cooperation of my Committee, the citizens, parents, teachers, boys and girls and your board of Selectmen has been of great assistance in my

work. We are all working for the best interests and welfare of our boys and girls, and any suggestions, that you may wish to make that will in any way improve the set-up and manipulation of your school system, will be appreciated.

Respectfully submitted,

PERRY F. SHIBLES,

Superintendent of Schools.

FLORENCE LIVERMORE,
Collector,

REPORT OF PUBLIC HEALTH NURSE

To the Board of Selectmen and Citizens of the Town of Sebec, Maine:

We hereby submit a report of Public Health Nursing Service given to your town for the period February 1, 1934, to February 1, 1935:

Conditions which affect one town in a community are bound to affect others, and while your town ordinarily requires the minimum of public health nursing service, this year there seemed to be slightly more to do, but all calls have been answered and we hope satisfactorily.

At the end of the school year, the schools had received the annual physical inspection given by the nurse.

Since the beginning of school the three schools have been revisited and the nurse's inspection given with the following statistics:

Total number of pupils inspected,	43
Total number found to be free from symptoms of defects,	19
Total number of children who have not gained sufficiently,	3
Number of children failing vision test,	6
Number of children having vision corrected by glasses since last inspection,	1
Number of children presenting dental defects,	18
Number of children presenting dental corrections since last inspection,	7
Number of children presenting symptoms of nasal defects,	1
Number of children presenting enlarged tonsils,	11
Number of children reporting throat corrections,	2
Number of children presenting glandular enlargements,	7

It was possible for our nurse to take one patient to Bangor to consult with specialist and to obtain hospitalization for another patient without cost.

Several home visits were made in interests of averting epidemic, and other calls answered as requested.

The nutritional status of the children seems to be up to par, but cod liver oil was given in needy cases.

In closing, we wish to thank Sebec citizens for their loyalty and coöperation in our efforts to better health conditions in the county and your local community and express our appreciation of all your helpfulness in the past year.

Respectfully submitted,
Piscataquis County Nursing Service,
By LOUISE B. NICHOLS, R. N.,
Public Health Nurse.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of Sebec:

I herewith submit my third annual report of your schools for the municipal year 1934-35.

Three schools have been maintained for the municipal year 1934-35.

The pupil enrollment and teachers are as follows:

VILLAGE—Teacher, Marjorie Burgess; training, 4 summer sessions; number of pupils, 9; wages per year, \$505.50.

CORNER—Teachers, Kathleen Huff (17 weeks); training, 2 summer sessions; number of pupils, 26; wages per year, \$563.00. Bernice Hesketh (19 weeks); training, Normal graduate; number of pupils, 26; wages per year, \$563.00.

STATION—Teacher, Eleanor Ladd; training, 1 year Normal school and 1 summer session; number of pupils, 15; wages per year, \$443.50.

Last fall entrance of secondary pupils was: 10, Foxcroft Academy; 6, Milo High School. At the present there are 5 in attendance at Milo. Reports from the schools show that the scholastic standing is much improved over that of last year. All high school tuition has been paid up to January 1, 1935. The rates of tuition are;

Foxcroft Academy, \$85 per pupil per year; Milo High School, \$80 per pupil per year.

Three conveyance teams, as last year, are being maintained as follows:

CORNER—Harry Taylor, 9 pupils, \$10.00 per week.

CORNER—J. Q. Livermore, 5 pupils, \$7.50 per week.

STATION—John Ladd, 6 pupils, \$6.75 per week.

Although there have been some heavy storms, conveyance has been taken care of very satisfactorily.

Your teachers attended the County Teachers' Convention, held at Brownville Junction, and the State Convention in Portland. All have worked very conscientiously, and good progress is being made by the pupils.

Miss Eleanor Ladd attended Gorham Normal the past summer session, taking work in Primary Reading.

Although wages are low, it seems to me that it is the duty of all teachers to keep up their professional training, that they will be prepared to give to our schools the best of service.

New English books for Grades 3 to 8, inclusive, have been introduced. The Daily Life Language Series, by Lyman, Johnson & McGregor, authors for Ginn & Co., was adopted, after a careful study was made of several series of English books recently published.

New Geographies have also been introduced and are working out very satisfactorily.

New Civics books are needed and more supplementary reading in History, Nature and Science for the upper grades.

Necessary supplies have been furnished. From the Book and Supplies account, \$14.60 was paid for ERA materials. It was voted to transfer \$50.00 from the Common School Fund to the Book and Supplies account. The account now shows an overdraft of \$13.45. There are about \$25.00 worth of standard school supplies on hand at the present time.

REPAIRS

The major repair item the past year was increasing

the area of light at the Corner by putting in larger windows. The building was also painted outside. Through the help of the selectmen an ERA project for the labor, with the exception of \$5.20, was made available to the town from the Federal Government. The cost to the town was \$70.35 for materials.

Insurance next year will have to be renewed on the Harriman, Corner and Station buildings, the cost being about \$55.00. Minor repairs on the Station building are necessary.

Your Superintendent and School Committee have tried to spend the school funds economically and at the same time maintain an efficient school system.

The Superintending School Committee estimates on school budget for the municipal year, 1935-36, are as follows:

Common schools, including teachers' wages,	
fuel, janitor, conveyance, books and supplies,	\$2,150.00
High school tuition,	600.00
Superintendent of schools,	215.00
Repairs and insurance,	75.00

Due to only one senior leaving high school and a large class to enter next fall, the tuition account will be increased \$200.00 to \$250.00, making necessary an increase of \$200.00 in the appropriation.

I wish to thank my School Board, the Selectmen, parents and teachers, boys and girls, for your continued coöperation during my third year's work in your schools.

Respectfully submitted,

PERRY F. SHIBLES,

Supt. of Schools.

Art. 24. To see if the town will vote to raise and appropriate the sum of five hundred and fifty-eight dollars for the maintenance of State and State aid highways during the ensuing year, within the limits of the town, under the provisions of Sections 9, 18, 37 and 38 of Chapter 28 of the Revised Statutes; providing for patrol service for such roads.

Art. 25. To see if the town will vote to raise and appropriate the sum of four hundred seventy-four dollars for the maintenance of improved sections of third class road within the town, in accordance with the provisions of Sections 43 to 47, inclusive, of Chapter 28 of the Revised Statutes of Maine.

Art. 26. To see what sum of money the town will vote to raise and appropriate for State aid road construction (in addition to the amounts regularly raised for the care of ways, highways and bridges) under the provisions of Section 19, Chapter 28, Revised Statutes of 1930, or under the provisions of Section 3, Chapter 173, Public Laws of 1935,

Art. 27. To see what sum of money the town will vote to raise and appropriate for maintaining street lights at Sebec Village, Sebec Corner and Sebec Station.

Art. 28. To see if the town will vote to raise and appropriate the sum of thirty-five dollars, or any other sum, to pay for the services of the public health nurse for the ensuing year.

Art. 29. To see what sum of money the town will vote to raise and appropriate for the care of cemeteries in the town, and specify how the same shall be expended.

Art. 30. To see if the town will vote to raise and appropriate the sum of one hundred dollars to pay the interest on the school fund note for one year.

Art. 31. To see if the town will vote to raise and appropriate the sum of one hundred and forty dollars, or any sum, for the maintenance of special resolve roads.

Art. 32. To see if the town will vote to authorize the selectmen to purchase land on the John O'Brien farm to be used as a relocation in straightening the Bowerbank road at that point and take conveyance of the same in the name of the town.

Art. 33. To see if the town will vote to authorize the selectmen to sell the schoolhouse in the Ernest Livermore district, known as the Longfellow schoolhouse, for such sum as they can obtain for the same, and to convey the same in the name of the town.

Art. 34. To see if the town will vote to raise and appropriate the sum of two hundred and sixty-six dollars to pay the town's share of the expense of maintaining the State road through the town in accordance with the provisions of Chapter 149, Section 9, Public Laws of 1935,

Art. 35. To see what sum of money the town will vote to raise and appropriate to pay the town's part of the expense of building road as a W. P. A. project.

Art. 36. To see if the town will vote that residents of the town who own trucks shall be given work with their trucks on the roads in town in proportion to the amount of taxes assessed against them.

Art. 37. To see in what manner the town will provide for the collection of taxes for the ensuing year and fix the compensation of the collector.

Art. 38. To choose a collector of taxes.

Art. 39. To choose one or more constables.

Art. 40. To choose a budget committee.

Art. 41. To act on any other business that may legally come before the meeting.

The selectmen hereby give notice that they will be in session at the town house in said town at eight o'clock A. M. on the day of said meeting, for the purpose of revising and correcting the list of voters.

Hereof fail not and have you there this warrant with your doings thereon.

Given under our hands at Sebec, Maine, this twenty-ninth day of February, A. D. 1936.

CLARENCE W. PARKER,
EUGENE L. ROBINSON,
HERBERT A. MOORE,

Selectmen of Sebec.

REPORT OF PUBLIC HEALTH NURSE

To the Selectmen and Citizens of Sebec, Maine:

We hereby submit a report of public health nursing service given to your town for the period February 1, 1935, to February 1, 1936:

The prime objective of our organization in giving public health nursing service is that of health education with a view to prevention of disease.

Since it appears that the most valuable results of such an objective lie in the detection of what needs to be done, instruction as to why it should be done and then assistance in getting it done, emphasis has for the most part been placed upon the child of school age.

Therefore at the beginning of the school year, classroom inspections were made in the Corner and Village Schools. Since that time, annual physical examination has been made at the Corner School and it is hoped that before this report is printed, that the other two schools will have had complete physical inspection by the nurse.

Statistics for the Corner School are as follows:

Pupils inspected,	19
(absentees, 4)	

Pupils without evidence of defects,	9
-------------------------------------	---

Evidence of defects as follows:

Vision,	3
Teeth,	5
Nasal,	1
Enlarged tonsils,	3
Enlarged glands,	2
Orthopedic,	1
10% underweight,	1
Corrections:	
Glasses (new or refitted),	2
Teeth,	5
Throats corrected,	2

Home visits have been made upon request to all age groups. Assistance was given in securing hospitalization for one patient. Material aid has been secured in several cases.

We wish to express our appreciation to the townspeople of Sebec for their loyal support the past year in town appropriations, gifts and memberships and to the Red Cross for material aid.

Respectfully submitted,

Piscataquis Nursing Service,

By Louise B. Nichols,

Public Health Nurse.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of
Sebec:

I herewith submit my fourth annual report of your schools for the municipal year 1935-36.

Three schools have been maintained for the municipal year 1935-36, with pupil enrollment and teachers as follows:

VILLAGE—Teacher, Marjorie Burgess; training, 4 summer sessions; number of pupils, 15; wages per year, \$504.00.

CORNER—Teachers, Kathleen Huff (13 weeks); wages per year, \$576.00; Eleanor Ladd (23 weeks); training, 1 year normal school and 2 summer sessions; number of pupils, 22; wages per year, \$576.00.

STATION—Teachers, Eleanor Ladd (13 weeks); wages per year, \$450.00; Kathleen Huff (23 weeks); training, 3 summer sessions; number of pupils, 12; wages per year, \$504.00.

In addition to the above training, your teachers completed this fall, two 15-week courses in "Modern Methods of Teaching," and "Tests and Measurements and their Interpretations," given at Dover-Foxcroft by Prof. Ernest Jackman and Dr. J. W. Crawford, of the faculty of the University of Maine, College of Education. A complete testing program has been given in our schools in conjunction with the courses. The objective of the Testing program has been:

1. To find out how the accomplishment of pupils in our schools, by grades, compared with that of other school systems throughout the United States, where a similar program of testing had been completed.
2. To ascertain in what subjects there is need of improvement in our methods of instruction and use of materials.
3. To develop a systematic type of remedial work, giving special attention to individual in-

struction. 4. To ascertain weaknesses in our teaching method and program arrangement, that we may reduce the need of remedial teaching to a minimum.

We are pleased to report that our schools were above the average norm for their respective grades. This program has required a great deal of painstaking work by both pupils and teachers. They are to be complimented on their splendid work.

We have 19 students attending secondary schools as follows: Foxcroft Academy, 11; Milo High School, 6; Higgins Classical Institute, 2. These students, with one exception, are making fine records. Many have been on the honor rolls of their respective schools.

High school tuition is paid as follows: Foxcroft Academy, to January 1, 1936, \$90.00 per pupil per year; Milo High School, to January 1, 1936, \$70.00 per pupil per year; Higgins Classical Institute, to March, 1936, \$100.00 per pupil per year.

Two conveyance teams have been maintained since the opening of schools in September. The River Road conveyance being taken care of by an act of the 87th Legislature "that towns, cities or plantations, having paupers residing in another town, who have children attending schools, shall locate such paupers so that the city, town or plantation where they reside shall not be put to extra expense for conveyance to secondary or elementary schools."

CORNER—Harry Taylor, 11 pupils, \$13.00 per week.

CORNER—John Ladd, 7 pupils, \$6.75 per week.

All teachers attended the County Teachers' Convention held at Greenville, and the State Teachers' Convention in Bangor. I find them always ready to coöperate and carry out the school program suggested.

I feel that our school program at the present is meeting the needs of our boys and girls in a very satisfactory manner with one exception. We need music in our schools. Every boy and girl needs at least a general musical training, in order that he may become a good community worker. The

value of it was shown by the orchestra at our Grammar School graduation last June. Mr. Moore's work with the young people means a great deal to them in their school work beyond the grades, and to the community at its various gatherings. It is possible, that for a comparatively small expense, the services of the Dover-Foxcroft music teacher, for vocal work in our schools, could be had one day every two weeks. The cost of books for a music course would be low.

New geographies have been purchased for Grades 5 and 7, completing a new introduction throughout the grades. Additional reading material for the lower grades has also been introduced. You will notice that the books and supply account runs quite high. This is partly due to an overdraft in 1935 of \$13.45, plus the cost of lights, \$26.00. It is the belief and policy of your school committee and superintendent that books and supplies for the schoolroom are like oil for your automobiles. The efficiency of the teacher and operating of a good school is brought to its highest point only when there are proper tools and materials to work with.

REPAIRS AND INSURANCE

The major item of this account was for insurance on the Harriman, Corner and Station buildings, which amounted to \$61.80. With the overdraft in 1935 of \$6.34, the balance expended has been for minor repairs.

The insurance of \$49.50 on the Village School building will become due next June. The shed roof and north side, at the Station, need recovering.

At the Corner School a center support should be reset.

Your committee and superintendent have discussed school finances at each meeting. It is felt that we cannot safely reduce the present program. An efficient school is an economical school.

Herewith is the estimate of your school committee for the

school budget for the municipal year 1936-37.

Common schools, including teachers' wages, fuel,

janitors, conveyance, books and supplies,	\$2,100.00
High school tuition,	750.00
Superintendent of schools,	215.00
Repairs and insurance,	75.00

We have two seniors to graduate in June and two pupils to enter High School next fall, which will make the cost of High School tuition practically the same as the year 1935-36.

My work in the Town of Sebec has been enjoyable; it has been encouraging. I have a coöperative school board and teaching force. Your boys and girls are good workers and I find parents and citizens interested in the welfare of their schools.

I thank you one and all for this fine support.

Respectfully submitted,

PERRY F. SHIBLES,

Superintendent of Schools.

REPORT OF NURSING SERVICE

February 1, 1936, to February 1, 1937

To Board of Selectmen and Citizens of Sebec:

The annual physical inspection (with the exception of the Corner School) was completed in October with the following results:

STATION SCHOOL

Pupils inspected,	14
Defective vision,	4
Defective teeth,	5
Enlarged tonsils,	1
Nasal defect,	1
Underweight,	1

In this school one throat correction was reported and notices were sent to parents of all defects found with advice that the child be taken to the family doctor. Report was left with the teacher also.

VILLAGE SCHOOL

Pupils inspected,	11
Defective vision,	3
Defective teeth,	6
Enlarged tonsils,	2
Enlarged glands,	1
Skin infection,	1

No corrections were reported from this school. Notices were sent to parents of defects found with advice

that the child be taken to the family doctor. Report was left with the teacher also.

In February, 1936, the Corner School was examined for symptoms of scarlet fever and skin disease.

Many office visits and telephone calls have been attended to, as well as home visits of prenatal, social and instructive nature. An appointment was made for one child to be taken to the Clinic for Crippled Children held in Bangor.

In August a new health worker, Miss Lucy Clark, who will work with the mothers and pre-school children, was added to the county workers under the auspices of the Bureau of Health, making it possible for the nurse to give more service to school children and tuberculosis patients, and other health problems.

We express our appreciation and wish to thank the town for its financial support of the county health work.

Respectfully submitted,

Piscataquis County Nursing Service,

By CLYE H. RICKER, R. N.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens
of Sebec:

Herewith is a report of your schools for the municipal
year 1936-37.

Three schools have been maintained with pupil en-
rollment and teachers as follows:

VILLAGE — Teacher, Marjorie Burgess; training,
four summer sessions at Normal school; number of
pupils, 12-18; wages per year, \$518.

CORNER — Teachers, Eleanor Ladd Greenier (13
weeks) training, one year at Normal school and two
summer sessions; wages, \$576. Kathleen B. Huff (23
weeks); wages, \$590 per year; number pupils, 27-31.

STATION — Kathleen B. Huff (13 weeks); wages,
\$504 per year; training, three summer sessions. Eleanor
Ladd Greenier (23 weeks); wages, \$504 per year; num-
ber of pupils, 12-19.

Secondary school pupils are attending the following
schools:

FOXCROFT ACADEMY—Fall Term, 11; present
time, 8. Tuition, \$90.00.

HIGGINS CLASSICAL INSTITUTE — 3 pupils.
Tuition, \$100.00.

MILO HIGH SCHOOL — 5 pupils. Tuition, \$70.00.

I am pleased to state that the boys and girls attending
secondary schools from Sebec are maintaining a fine
scholastic record. Out of sixty-six subjects pursued, one
pupil failed one subject during the first semester of the
present year's work.

Two conveyance teams were maintained last spring.
A third one was necessary at the beginning of the fall
term. They are as follows:

CORNER—Harry Taylor, 10 pupils, \$13.00 per week.

CORNER — John Ladd, 8 pupils, \$6.75 per week (spring).

CORNER — J. Q. Livermore, 12 pupils, \$13.45 per week (fall), \$13.95 per week (winter).

STATION — John Ladd, 5 pupils, \$6.50 (fall), \$7.00 (winter).

Your teachers attended the County Teachers' Convention held at Sangerville and the State Convention in Lewiston during the fall term.

For the most part, coöperation in your schools has been excellent. School work, to my mind, is one of the most important professions. You will agree with me that the teacher is the key to a successful school; her understanding, cheerfulness, method of approach, her ability to observe each child's difficulties, and in turn teach the points which need to be taught, are practices used by a successful teacher. A progressive teacher always analyzes the many problems of the school day,

having her children feel that she has full faith in them. No child should ever feel discouraged, or be made to feel that they are a failure.

We have a large school at the Corner. At the Station we have nineteen pupils and, as you all know, in a very small building. This makes a crowded condition. To my mind there is need for a change in your buildings. These two schools, as they are at the present, with teachers giving the best they have, do not serve for the best interests of a successful school. I trust that the people of Sebec will make future plans and consider erecting a two-room building which would be the better way of solving this present school problem.

FINANCIAL PROGRAM

The financial side of our school program possibly needs to be explained. In reading the financial report

you will find that we had a balance of \$607.95 February, 1936, which has been reduced to \$146.78 February, 1937. There are three reasons for this difference; first, the tuition from Bowerbank has decreased \$38.00; second, the added conveyance on the River Road cost \$153.50; third, the Budget Committee reduced the amount asked by the School Committee for Common Schools by \$200.00. The balance of \$146.78 plus other resources of \$800 will make it necessary for the School Board to ask the Budget Committee for an appropriation of \$2,500.00 for Common School purposes.

The High School account carries an overdraft of \$126.08. With two students to be graduated in June and at least six to enter next fall, the High School cost to February, 1938, will be slightly higher. The amount of tuition estimated, including this year's overdraft, is \$1,601.08. Deducting \$700.00 available from the State School Fund, it is estimated that the town's part of expense for High School education will be \$901.08. This necessitates the Committee asking for an appropriation of \$925.00 for Free High School. The Committee and your Superintendent fully realize the appropriations asked for means an increase of \$775.00 more than those of 1936. We have no control over high school costs. You are schooling your secondary pupils for less money than most towns having their own high schools to support.

Comparing wages paid teachers and conveyance with those of other towns the size of Sebec, you will find they are only average. Sebec's school rate last-year was .00872, tax rate .039, which is far below other towns of the county. The average for the State last year was school rate .01214; tax rate, .05625.

Sebec citizens have always supported the schools. The above figures are given to show that your schools are being run economically. I am sure you will support the judgment of your School Committee and appropriate the amounts necessary to maintain the present program.

REPAIRS

The Station school building needs painting and the shed roof and north side should be re-covered with roofing or shingles. The outside of the Village building is in need of paint. At the Corner, the electric lighting should be improved.

BOOKS AND SUPPLIES

New readers were purchased for grades sub, one, two and three; also many supplementary readers have been added. New water coolers have been purchased for each building. New readers are needed for grades seven and eight. Spelling books are needed for all grades; arithmetics should be changed providing funds are available.

Desiring to maintain a satisfactory school system, your School Committee will submit the following school budget to your Budget Committee for their consideration:

Common schools,	\$2,500.00
High school,	925.00
Repairs,	75.00
Superintendent,	215.00
School committee,	18.00

In submitting my fifth report of your schools I can frankly say that the coöperation of the school board, teachers, parents and pupils has determined the success of your schools. For this fine spirit of loyalty, I thank you.

Respectfully submitted,

PERRY F. SHIBLES,

Superintendent of Schools.

REPORT OF NURSING SERVICE

To Selectmen and Citizens, Town of Sebec:

Health promotion and disease prevention, with emphasis placed upon the child of school age and the tuberculosis patient who may be a contact, suspect or actual sufferer, have been the primary objectives of our community public health nursing organization throughout the past year.

As announced in last year's report, the maternal and pre-school group has been cared for by the State nurse and all such cases brought to our attention have been referred.

Annual physical inspections have been made in all three schools since September 1st. Statistics may be obtained from our office, the teacher or superintendent of schools.

The town records of deaths from tuberculosis over a period of years have been checked over and it would seem wise to suggest for your consideration as a part of the 1938 health program, tuberculin skin tests of all school children with subsequent chest X-ray of all reactors and clinical examinations where indicated.

Several visits have been paid in the interest of tuberculosis and one boy was examined at Milo.

Four children with crippling conditions have been visited and one referred to the State Clinic.

Appointment has been made for the examination of one child at the Central Maine Sanatorium and arrangements are now in progress for the correction of long standing defects of several school children.

In addition to the above suggested tuberculin test for school children, we present the following for your consideration:

1. Toxoid (diphtheria prevention) for all of the younger children.
2. Vaccination,—smallpox prevention.
3. Early medical or surgical attention to defects, examinations by oculists and dentists.
4. Coöperation of parents in securing throat and dental certificates necessary for seven-point recognition.

We wish to express our appreciation of your interest and support throughout the years.

Respectfully submitted,

Piscataquis Nursing Service,

By LOUISE B. NICHOLS, R. N.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of Sebec:

Herewith is a report of your schools for the municipal year 1937-1938.

Three schools have been maintained with teachers and pupil enrollment as follows:

VILLAGE — Teacher, Marjorie Burgess; training, four summer sessions at Normal School; number of pupils, 12-14; wages per year, \$504.00.

CORNER — Teacher, Mrs. Kathleen B. Huff; training, three summers at Normal School; number of pupils, 24-28; wages per year, \$612.00.

STATION — Teacher, Mrs. Eleanor L. Greenier; training, one year at Normal School and two summers; number of pupils, 15-19; wages per year, \$504.00.

Sebec pupils are attending secondary schools as follows:

School	Spring	Fall	Winter	Tuition
	1937	1937	1938	
Foxcroft Academy,	10	16	13	\$ 90.00
Milo High School,	5	6	5	\$ 70.00
Higgins Classical Institute,	3	3	2	\$100.00
East Corinth Academy,		1	1	

In comparison to school census, Sebec has a large percentage of pupils attending secondary schools. For the most part, they are doing a very satisfactory grade of work.

To a certain extent the quality of work done by pupils attending secondary schools serves as a barometer for the work being done in the elementary system. We should give more time to the development of proper study habits throughout the grades. Educators are agreed that the real art in teaching is not necessarily to have pupils

learn a lot of facts, but to teach children how to observe and evaluate the important parts and points of the printed page. A reasonable speed in reading is most desirable. During the next thirteen weeks, tests are to be given to check speed and comprehension in reading for each pupil. Also, as far as possible, to discover individual problems in the method of teaching and study.

Three conveyance teams are used at the present time as follows:

			Fall	Winter	Spring
Harry Taylor,	10-12 pupils	\$12.00	\$13.00	\$13.00	Corner
J. Q. Livermore,	9 pupils	7.50	8.00	7.50	Station
J. A. Ladd,	5 pupils	6.50	7.00	6.50	Corner

The question of room has not been serious this year, the Station being the only school with an enrollment above a proper standard. I still feel that the people of Sebec should seriously consider better housing facilities, not only to improve the teacher's time and schedule for individual pupil attention, but as an economical program measured over a ten-year period.

The financial report has not changed from that of last year. There is still an overdraft carried in the High School account, due to a larger attendance in secondary schools than was anticipated a year ago. This cost will continue about the same. Even at a cost of \$1,000.00 to the town for 21 pupils, the expense is less than that borne by 95% of the towns in the State where a high school is maintained.

REPAIRS

The Station shed roof and north sides have been recovered with roofing. The platform steps at the Village have been rebuilt. New light bulbs have been put in the Corner and Village buildings. Next year, insurance to the amount of \$61.40 will take the most of the repair appropriation. A special article has been placed in the warrant regarding painting of Village Schoolhouse. The building is in need of paint and the committee feel that the article should receive favorable consideration.

BOOKS, SUPPLIES AND LIGHTS

This account may appear to be high. Your schools are well supplied with books and supplies. These are necessary for a teacher to do her best work. Our aim, especially in the lower grades, is to increase the amount of reading so as to make the development of vocabulary and word meaning very slow and unnoticed compared to the amount of materials read. We are asking for \$200.00 for the coming year. A portion of this money will be used for special seat work and reading tests, also readers for upper grades. Spelling workbooks are being used in all grades. Spelling is arranged as a weekly program, which is working out very satisfactorily.

BUDGET, 1938-39

At a meeting of the superintending school committee, the following budget was voted:

Common schools,	\$2,200.00
High school,	1,325.00
Repairs,	75.00
Superintendent,	215.00
School committee,	18.00

It will be noticed that this is a decrease of \$300.00 for common schools and an increase of \$400.00 for secondary schooling. As I have stated and as you know, we have no control over High School tuition costs.

I assure the people of Sebec, school committee, teachers, and children, that I appreciate the fine coöperation and interest which you are giving to your schools.

Respectfully submitted,

PERRY F. SHIBLES,

Superintendent of Schools.

PISCATAQUIS COUNTY NURSING SERVICE

To the Selectmen and Citizens of Sebec, Maine.

Following is a report of public health nursing service given to your town by our organization during the past year.

Health Education with emphasis upon the child of school age and contacts, suspects of tuberculosis as well as those having the disease, with assistance in protection of health and prevention of disease has been our primary objective.

Although it will be impossible to give statistics of school inspections at this time, considerable other work has been done and the school inspections will have been completed, it is hoped before this report reaches readers.

During February home visits were paid to a child who in the past has been suspected of having childhood type of tuberculosis. It had been some time since there had been a check-up and therefore other arrangements were made and this child accompanied to the Central Maine Sanatorium for X-ray and examination. She was so much improved that it was possible to discharge her from our active records.

Cooperating with the Crippled Children's Service of the State Bureau of Health, visits were made to children with crippling conditions, and one new case was found and referred. This child had attended clinic several times during the past year and is very much improved. Visits have been made periodically to others and arrangements made for others to attend clinic or return for check-up.

In April visits were also paid to crippled children.

In June a special visit was paid to the town in relation

to suspected scarlet fever.

In July the town was visited in relation to tuberculosis patients and to plan for tuberculin testing later in the season. During this month home visits were made with Miss Hoffmire, Physiotherapist of the C. C. S. of the State Bureau of Health.

In August tuberculin tests were made with District Health Officer on four children. A special call from the selectmen was answered in relation to social welfare.

In October Miss K. Gay, R.N. Tuberculosis Clinic Nurse from the State Bureau of Institutions came to town and we gave skin tests (Von Pirquet) to 39 pupils. Two days later the test was read and no reactors were found which made it unnecessary to X-ray any of them.

In November one child was accompanied to the Crippled Children's Clinic in Bangor.

A survey made last spring in regard to communicable diseases and immunizations which the children had had, was made and it was found that only a few had received immunization against diphtheria or smallpox. It is desirable that these be given children before entering school upon the advice of the family physician and is a modern trend in community health and is worth while considering as a feature for the coming year.

In closing, I wish to express my appreciation of the fine spirit of cooperation which has been given by your citizens during the many years of affiliation with our organization.

Respectfully submitted,

Piscataquis Nursing Service,

LOUISE B. NICHOLS, R.N.

REPORT OF SUPERINTENDENT OF SCHOOLS

VALUATION (Sebec)

Equipment,	\$1,000.00
School Sites,	8,000.00
<i>To the Superintending School Committee and Citizens of Sebec:</i>	

Herewith is a report of your schools for the municipal year 1938-39.

Three schools have been maintained with teachers and

pupil enrollment as follows:

School	Teacher	Yearly Wage	No. Weeks	No. Pupils
Village	Miss Marjorie Burgess	\$504	14	16-20
	Mrs. Nellie Mooers	504	22	19-22
Corner Station	Mrs. Kathleen Huff	612	36	25-29
	Mrs. Eleanor Greenier	504	36	15-17

CONVEYANCE

School	Driver	21 Wks.	15 Wks.
Corner	Harry Taylor	\$12.00	\$13.00
Corner	J. O. Livermore	7.50	8.00
Station	J. A. Ladd	6.50	7.00

The following pupils attended and are attending secondary schools for 1938-39:

FOXCROFT ACADEMY, TUITION \$90—Edwin Mahoney, Elizabeth Ireland, Rose Folsom, Florence Towne, Mary Crossman, Edwin Cookson, Arlene Huff, Anna Dean, Dorothy Davis, Harriett Crossman, Virgil Bennett, Luella McClure, Dorothy Dean, Dorothy Crossman.

MILO HIGH SCHOOL, TUITION \$70—Maynard Ames, Phyllis Dickson, Martha Dickson, Edwina Packard, Dana Livermore, Jeannett Davis, Arveen Dearborn.

HIGGINS CLASSICAL INST., TUITION \$100—Dana Livermore, Willis Parker.

EAST CORINTH ACADEMY, TUITION \$60—Arveen Dearborn.

We find that our secondary pupils are making satisfactory adjustments in the several schools which they are attending, also that the grades received are most gratifying to all interested in their progress. Not only do we find them doing well scholastically, but they are participating in extra curricula activities, filling places of responsibility in the school program.

The work in the three elementary schools has progressed very well. Each year the work done among the pupils shows more uniformity. During the year an attempt has been made to improve study habits. A more definite program will be carried on during the next year. Knowing how to study is the greatest asset a pupil may possess. Also, we are attempting to do more work with music. Dr. Packard makes the following statement as to the value of music, "Music, I have always regarded as an essential subject in the school curriculum largely from its avocational possibilities. Very few

students pursuing the subject of music will ever be engaged in professional music work as a livelihood but the knowledge they have gained in this subject will go with them through life. They will enjoy it as an avocation both for their own recreation and the enjoyment of their friends."

We still have a question of room at the Station and a very heavy teacher load at the Corner. I feel confident that the citizens of Sebec realize the serious need of a program for better housing and teacher-pupil distribution as a means of increasing the efficiency of their school system. The town is taking advantage of Federal Funds for road construction. Why not follow the same policy in the improvement of school buildings?

The schools have been maintained 36 weeks. High school tuition bills paid for year also the overdraft \$207.08 of 1937-38. The cost of maintenance for the year 1939-40 should not vary appreciably from that of 1939.

REPAIRS

An amount of \$200 was raised last year to meet painting of the Village school buildings. The cost of painting amounted to \$125. This was considered a reasonable figure by your School Committee and the work done was very satisfactory. Insurance to the amount of \$61.80 was paid for a three year policy on the Village school buildings. The balance paid has been for general repairs.

BOOKS, SUPPLIES AND LIGHTS

We can say that our schools are well supplied with books and materials. It is the desire of your School Committee and Superintendent to start a program of improving reference books and maps in the schools.

BUDGET, 1939-1940

At a meeting of the School Committee the following budget was voted:

Common Schools	\$2,200.00
High School	900.00
Repairs	75.00
School Committee	18.00
Superintendent	230.67

This proposed budget shows a decrease of \$300 in High School tuition due to the fact that instead of an overdraft of \$207.08, a small balance is available.

The cooperation of teachers, pupils, school committee and

citizens of Sebec during the past year has determined the success of your school program. For this, I wish to express my appreciation.

Respectfully submitted,

PERRY F. SHIBLES,

Superintendent of Schools.

REPORT OF PUBLIC HEALTH NURSE**To Selectmen and Citizens of town of Sebec, Maine:**

Following is a report of public health nursing service given by our organization in your town the past year.

Prevention of disease by health education, location of need and assistance if necessary in early correction of defects and cooperation with all public health and welfare agencies, have been our objectives.

Since Sebec is so very near our office and headquarters it is quite possible to keep in close touch with your town. At the end of the school year the annual physical inspections had been completed with the following statistics:

Inspections	57
Under weight, 16, but gaining sufficiently, 14	
Vision.....7 with 4 corrections by glasses	
Nasal	2
Glands	4
Throat	5, Correction 5
Orthopedic	2, Corrections 2
Nutrition	2

During the summer home visits were made to Bowerbank children and local children with crippling conditions. One attended the Crippled Children's Clinic in Bangor and also attends the Exercise Clinics held at Dover-Foxcroft Office.

Home visits in the interest of tuberculosis have been made as necessary and special classroom inspections made as requested.

All calls have been answered. In August our nurse was invited to attend the clinic for preschools held at "The Ship" in Sebec Village. It is hoped that the next summer clinic may include school children as well.

We wish to express our appreciation of the fine cooperation of Sebec citizens in the support of town appropriation and purchase of Christmas Seals, the proceeds of which go to make up our service budget.

Respectfully submitted,

Piscataquis County Nursing Service,
Affiliated with

The Maine Public Health Association

Louise B. Nichols, R. N.,
Public Health Nurse.

STATE BUREAU OF HEALTH**Annual Report of Public Health Nursing Service 1939**

The public health nursing service covers the nurse supervision of expectant mothers, infants, pre-school and school age children. The report covers this general program and it is for this purpose which we are asking to have money raised to help continue the work by supplementing what is already being paid from State Bureau of Health funds. The work is carried largely through home visits and child health conferences. These contacts are made for the purpose of giving help in meeting the health needs of the family through advice and demonstration of methods of care in the home.

The encouragement of parents in the care of the family is most gratefully received. Through the nurses' home visits, medical supervision is urged where needed for treatment or correction of defects.

The importance of using the proper diet for maintenance of health and normal growth is discussed with families and aid given in planning food budgets.

The protection of children with communicable diseases, the protection of others from those who are ill and immunization against certain diseases is stressed. Whenever possible, child health conferences are held with the local people making the choice of examining physician and the State Bureau of Health paying for his services. The nurse is always alert to any crippling condition in children and with the consent of the physician, the services of the crippled children clinics, which are held in several sections of the State, are recommended to the family.

As other defects are found, the nurse calls those conditions to the attention of the parents with recommendations to secure advice from physician or dentist regarding care or treatment. In cases where the cost of corrective work cannot be assumed by the family, the nurse endeavors to enlist the interest of groups or agencies to assist in meeting these needs.

The annual Child Health Conference was held at which a pediatrician of the Boston Children's Hospital attended and was assisted by a local physician.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Sebec:

Herewith is a report of your schools for the municipal year 1939-40.

Schools maintained are as follows:

VILLAGE

Mrs. Nellie Mooers	14 wks.	\$504	20—26 pupils
Mrs. Eleanor Greenier	22 wks.	540	

CORNER

Mrs. Kathleen Huff	36 wks.	576	25—28 pupils
--------------------	---------	-----	--------------

STATION

Mrs. Eleanor Greenier	14 wks.	504	
Miss Betty Betterley	22 wks.	504	13—16 pupils

CONVEYANCE TEAMS

Driver — School	No. Pupils	Fall	Winter	Spring
Harry Taylor, Corner	10-12	\$11.00	\$12	\$11.00
J. Q. Livermore, Corner	6- 9			7.50
J. A. Ladd Vill. & Sta.	4- 6	6.00	6	6.50
Mrs. Fred Packard, River Rd. to Corner	4- 5	7.50	8	

The Secondary attendance has been reduced by three families moving into Dover-Foxcroft which gives a balance of \$277.92. All students are doing very satisfactory work, several being on the Honor Rolls.

The Station School was found to be crowded at the opening of the fall term making it necessary to convey several pupils to the Corner school. The Station building is not satisfactory, even with the present number attending.

Due to the conveying of children to the Corner, it was necessary to convey the pupils in the Downs section to the Village. By combining the two conveyances on the Main road, the total cost per week has been reduced.

School attendance has been above the average this year. This has also helped the quality of work accomplished. Teachers and pupils have an enthusiastic interest in their work and the excellent records of students in secondary schools are watched with keen interest.

BOOKS, SUPPLIES, LIGHTS

New arithmetics have been introduced in your schools. The supplementary reading has been improved in the lower grades. There is need for added reading in the upper grades. It is the program of your schools to spend more time with phonics and word analysis plus ability to read orally.

We should supply our schools with new and better reference books. This program is expensive where we have small schools. A liberal amount and variety of supplies are furnished the schools.

REPAIRS

The desk tops in all buildings have been refinished. The inside of the Village schoolhouse was painted. Also the front and entry of the Corner building. The repairs plus insurance, have made an overdraft in this account.

It will be necessary to shingle the Village school house roof next summer. The cost is estimated \$150. Due to the overdraft plus this cost we are asking for an appropriation of \$250.

BUDGET 1940-41

At a meeting of the School Committee the following budget was voted:

Common School	\$2,300
High School.....	300
Repairs	250
Superintendent	225
School Committee	18
Seats and desks (combination).....	100

We are asking for \$100 to procure desks. Many of our desks do not fit the children properly. With the purchase of adjustable desks it is believed the condition could be much improved.

I appreciate the cooperation accorded me by citizens, parents, the School Committee, teachers and pupils, for it, I thank you.

Respectfully submitted,

SUPT. PERRY F. SHIBLES.
